CRIMINAL MEGLIGENCE.

The progress of the investigation to discover the cause of the collision in the Fourth Avenue Tunnel by which six lives were lost, reveals daily new facts which positively prove that the neglect to light and ventilate the tunnel was absolutely criminal. The infallible (?) block system has been shown to have been worthless on many occasions, and that more accidents have not occurred is more owing to good luck than to intelligent ers have quite enough to do in this generamanagement. Enough has been learned so far to give the Grand Jury good material for action, and it will be derelict in its duty if it they will fall between two stools. it does not punish those to blame so severely as to cause at once the changes that are of such vital necessity.

Yesterday's investigation brought out that not only the New Haven local but a New York Central train ran by the Seventy and street danger signal on the day of the disaster, and that another horror was only averted by a cautious flagman walking back and torpedoing the track, causing the rear train to stop within two hundred feet of that in front of it, danger in the tunnel with the block system which the New York Central Road claims to be a perfect safeguard against accident. It was given by the conductor of the New Haven train which left the Grand Central Depot at 9.05 and narrowly escaped a crash with a New York Central

Q. Do you want the jury to understand that th two trains were on the same block at the same time? A. You, sir.

Q. And you understand that, according to th system, two trains cannot get on the same block at

A. That's the way I understand it Q. Then the only way that the second train could have got there was by the engineer either running the danger signal or getting it clear, was it

When it was suggested to light the tunnel the Company gave as an excuse that the block signals could not be seen if such were done. It is now known that half the time they cannot be seen in the unlighted tunnel. It is also certain

that if the tunnel had been lighted the New Haven local's engineer could have seen the there. "shop" train in time to stop, and six lives however, signals can be seen in a lighted Of course, the tunnel cannot be well

lighted unless it is ventilated, and the reason why it has not been ventilated is the expense. The railroad company should be forced to both ventilate and light it. If it will not, then its trains should be stopped north of the Harlem River and not allowed to come into the lower part of the city at all.

If steam motors are used in the Fourth Avenue Tunnel it must be lighted. The people will insist upon it.

UNENFORCED EXCISE LAWS.

The Grand Jury in its presentment in the Court of General Sessions passed some excellent strictures on the Excise Laws, and when the fish bite best-all told dark-haired songstress said, and the subject one of these days America will wake up, Judge Cowing declared them timely. They by a follower of Izaak Walton in was changed to metropolitan audiences.

are timely and thoroughly deserved. The Excise Laws are practically disre garded. With nearly four thousand complaints of their viciation in 1889 and 1890 there were only 183 indictments. The Grand Jury declares its conviction that the their injustice.

justice that the millionaire, the clubman. and the " guest" at a botel should be able to get spirituous and malt liquors on Sunday while the workman and small shopkeeper cannot obtain the small measure of

There is no justice in this. A law which makes such invidious discrimination between the rich and the poor is worse than no law. It not only teaches the poor man that laws can be broken, but it shows him Justice tampering with her scales and with

remedy lay with the Legislature. He admitted frankly that the Excise Laws, the charges under which were nearly all on Sunday selling, were uniformly disregarded. Let there be impartial justice in their enforcement. This is the least that any one such a hold upon the confidence of the people

WOMEN EMPLOYEES.

Women are getting more and more into the field of industry once entirely preempted by men. This cannot be depreeated where woman has to earn her own living, and even married women are a help

to the household support by their labor. But it is augmenting applicants for positions which do not correspondingly in-

rease. What will be the result ? Woman's capability for many forms of goes to show that she will soon be debarred only from the severer forms of physical employment. On the Kings County road they have proved so successful as ticket agents that more are to be engaged. The women. Woman is vindicating her posttion more thoroughly every day,

MORE INCENDIARISM.

flat building in Brooklyn awakens fresh indignation and horror. A sense of self-proection should urge that city to discover the flend, or flends, who are exercising their devilish energy in this way. Nothing will be more coercive than the detection and speedy punishment of the offenders, and no it all. effort should be spared to discover them.

The millionaires have got far enough with their club to be worrying about a name. Why should they bother about any New York society will attach to this plutocratic club. It is for rich men-men whose and its one sole distinction for the outside world will be from the golden light it will body has to face them. My husband has personified." diffuse. Call it the Gold Club. No name could be so appropriate or so honest.

political speech to the congregation under woman's very existence. the thin disguise of a prayer to the Deity it looks as if it were time to discriminate between the hustings and the pulpit. Preachtion to keep alive the spirit of faith, and that is their business. Politics will get

The Orthopædic Dispensary and Hospital for Crippled Children will be benefited by a refreshing. performance in the Assembly Rooms of the Madison Square Garden next Tuesday afoccasion. Those who adore the genius of this great actress will be glad to see that her white hands and shivered a little. beart can warm with charity as her mind can glow with lofty inspiration.

The magnitude of the North Atlantic ice crop is not such a cheerful fact as abundance of the frozen element in the Hudson River. Icebergs at sea are likely to be more expensive in proportion to their number. But with more blocks of ice on the market next Summer lower prices may be hoped for. Mark the hoped for.

A prophet is not without honor in his own country when he is dead and his prophecy has been realized. Exicsson will receive a handsome monument from his native land of Sweden in the shape of a temple. This is honorable to them both. The great Swede deserves it well.

The Bureau of Information in the Post-Office is one of those simple obvious benefits been conferred much sooner. The public is helped by it, and with no additional tax or expense. This is certainly the right sort of benefit.

sible use to which it can be put. All the newest slir pers are in Suede, waich is obtainable in purple, lavender, yellow, pink, green, black trouble to seek for it. The slippers are out high around the ankie, and are finished with a big buckle of gold or silver. Another style old low-cut styles are scarcely to be found in stock.

All the confections of a toilet must be of a color-gloves, hosiery, hat, purse, umbrella.

indifferent tools to work with. Have long needles to baste with, shorter ones to sew with. material. Velvet and silk should be basted with sewing silk, as the holes left by cotton show. In pulling out bastings from velvet clip every stitch, as to pull it leaves a mark. Long, light weight shears are necessary for cutting out garments, shorter ones for general use, sharp pointed scissors for ripping and buttenhole ac more for their own purpose. Fmail pine having fine points are easier to pin when fitting. The smooth ball-beasted black pins are used by the best of dressmakers when fitting slik or velvet boulces, as they do not make large holes. Measuring tapes, colored pencils for marking, an emery bag, and such indispensa le articles are surely too well known to need recommending. A dress flat-iron is of a long, stender shape and presses seams beautifully. sleeve boards are made to slip inside of a sleeve to fron the seams, but if unable to procure one of these a home-made substitute is a ro lingpin. There are many substitutes for the genuine whalebone, some of which give excellent satisfaction, of flore, steel, horn, &c., covered and uncovered. So few dressmakers can make nice buttonholes, yet nowadays a well nade tatior or ordinary buttonhole is preferred to one made on the machine. Like everyhing else this can be learned with practice. If you have been taught hand-sewing in your arly days, thank the lucky star at your birth. If not, then set to work about learning this lost art, for much hand work required even in these d ys of wonderfully improved sewing-machines. I suppose you know how to run a se-m, hem, fell,

backstitch, &c., but do you how to blind stite t is very easy to do when the know how is a needle, putting the attiches from a half to an Overwork, Shattered Nerves, Death. Fads. Fashions and Fancies That | meh spart and taking up only the upper part o the material, as the threads can always be divided with time and patience. Hold the part you are sewing over the left first finger and alip it along with the thumb With practice it becomes quick and easy work Baste carefully, and in us ng a sewing ma chine follow the line of basting exactly. Rus a sewing machine moderately and steadily fast, keep it well olled and cleaned and use the proper needle and thread for the goods. Do not stitch over the besting threads, but just slong the line, remembering that the crooked seams, so soul-harrowing in a basque, come from stitening the se m crootedly. The inventor of the most perfect dress system known says: "Dre-smakers cannot fit well without they basts carefully and measure perfectly." If every woman ex ecting to take up the trade of dresemaking could attend a dressm king school for a few months it would give her a splendid foundation, provided she band of home sewers and protessional dres

Established

That the ROYAL BAKING POWDER is the oldest and purest baking powder, and the greatest in leavening strength; That it

is free from every injurious substance; That it makes lighter, sweeter, more nutritious and healthful food than any other. The Royal Baking Powder Company makes its own cream of

tartar in its own mammoth refinery, and thus insures its unvarying quality. It uses in the manufacture of the Royal Baking Powder more than half of all the cream of tartar consumed in the United States for all purposes. This is required and must be chemically pure, and chemically pure cream of tartar could not be obtained in the market in this country or Europe, which necessitated the building of special works, and the employment of special processes. All other baking powders, when analyzed, show traces of lime and sulphuric acid which arise from the impurities of the materials bought in the market which their manufacturers use. This is why the Royal Baking Powder is the only absolutely pure baking powder made.

PAYING THE PENALTY.

"Shot himself dead." Why? Brain and nerve exhaustion from overwork, fret, worry. Men and paralysis, insanity or death follow.

They are warned of their doom by strange sensations, dull, dizzy, bad-feeling head, irritability,

ervousness, sleepless nights, tired waking, weak, rembling, cold limbs, languor, sense of pervous and payment exhaustion. These are danger hat is to be done? Use Dr. Greene's Nervurs. and this great nerve, brain and blood invigorator will give you a clear brain, strong nerves and sound health. Purely vegetable and harmless. Sold by druggists, \$1.00.

"From constant scorry over business matters I sufferred from the loss of steep, and became so nerrous that I wearentirely unfitted for my business. In fact, I fearred insanity. I used Dr. Greene's Nerrura. The effect was almost magical. I could again sleep; mental composure, appetite and strength returned. Six bottles of this remedy cured me, and I have remained well to this date. I have me, and I have remained well to this data. I have recommended Dr. Greene's Nervora to many of my friends and neighbors, and save yet to learn of a

A STORY OF WATERLOO. How a French General Was Stolen

by a Young English Officer. The only prisoner made by the English eserve at Waterloo, says an English paper, was a French general, whose capture was due to the cool head and stout heart of a young brigade major anxious for an adventure.

of cavalry and infantry were kept in reserve under a heavy fire from the French guns. Great was the havoe, and neither men nor horses relished the passive attitude to which they were condemned. front of the left wing of the reserve were discussing the situation, their

general and his staff, all on horseback who were looking through their glasses at the Englishmen. One of the group was Captain Halkets. a young brigade major mounted on a thorough-bred. Suddenly he exclaimed: "I'll lay any one five pounds that I will bring that French general, over here, dead or alive. Who'll take my

attention was attracted to a French

"Done, done, done, shouted several off."

The captain examined the saddle girths and his pistols. Then shouting "good-by." and putting spurs to his horse, he dashed at a forlous pace across the plains between the British and French lines. His comrades followed him with their glasses, not speaking a word.

The Frenchmen opposite seemed pursued. Believing that the Englishman's horse had bolted, and that the rider had lost control of him, they opened their ranks to be the real of the ranks to be the seered his steed ho as to me.

"Done, done, done," shouted several

their ranks through. Halkett steered his steed so as to me an animal general on the right side.

At that instant he put his arm around the Frenchman's waist, lifted him bodily out of the saidle, and throwing him over his own horse's neck turned sharp and made for the English lines.

When the general's staff realized the meaning of the bod rater they dashed after him, but he had a good start, and not a Frereimes at to fire for fear of hitting the general.

Haif a start in the dashed by a dozen seeing Halkett chased by a dozen French officers, charged them. They opened their ranks to let Halkett through, closed them up again the moment he was in the rear, and then forced the Frenchmen to turu swiftly and seek shelter under their own guns. Amid the maddest chering Halkete stopped in front of the British lines, with the general half dead but securely clasped in his strong arms. He jumped from his horse, apologised to the prisoner for the unceremon'one way in which he had been handled, and, in reply to the congratulations of his comrades, said simply:

"Praise my horse, not me." The captured general was treated with the utmost courtesy and consideration.
